

ZENIFEL™

Spray

Calming pheromones with catnip for stress related behaviors

USES:

ZENIFEL™ Spray contains calming pheromones and Nepeta cataria extract which are recommended to comfort cats displaying stress-related behaviors. ZENIFEL™ Spray is effective for managing unexpected stressful events. Each 60 ml bottle delivers a minimum of 400 sprays.

ZENIFEL™ Spray is an innovative formula made with F3 fraction of feline facial pheromone analogues (11.6 %) and Nepeta cataria extract, commonly called catnip. The plant sources of Nepeta cataria extract are also known to improve the general well-being of cats as well as facial marking.

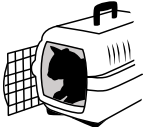

COMPOSITION:

F3 fraction of feline facial pheromone analogues	11.6%
Nepeta cataria extract	0.5%
Ethanol, water	q.s 87.9%

INSTRUCTIONS FOR USE:

SHAKE WELL BEFORE USE. Spray only in your cat's environment such as carrier, blanket, walls, and furniture and NOT directly on the animal. Always wait about 15 minutes before allowing your cat to approach areas in or on which you have sprayed the product.

Detailed instructions for use:

	CARRIER/TRANSPORTATION
When	Use 15 minutes before placing your cat in the travel carrier
Where	Apply up to 8 sprays around the inside of the carrier
Frequency	Repeat every 4 hours, if needed. Always remove the cat from the carrier before spraying or using this product

	URINE MARKING
When	After locating and properly cleaning all traces of urine
Where	On the vertical surface where urine was deposited, normally 5-7 inches from the ground
Frequency	Apply 1 to 3 sprays every 4 hours. For a minimum of 1 to 4 weeks at each marked location

	SCRATCHING
When	From the first moment scratches are discovered
Where	On the scratched area
Frequency	Apply up to 6 sprays once per day. Repeat if needed for a minimum of 1 to 4 weeks on each area

	MULTI-CAT HOUSEHOLDS
When	Before the introduction of a new cat into the house
Where	Apply spray to each corner of frequented rooms, 7 inches from the floor Apply spray to door frames and corners of furniture
Frequency	Once per day for 2 months on average. Can be repeated every 6 hours if needed

	MOVING TO A NEW HOUSE/REMODELING/BOARDING
When	Before introducing your cat into a new environment
Where	Apply spray to each corner of frequented rooms, 7 inches from the floor Apply spray to door frames and corners of furniture
Frequency	Once per day for a minimum of 1 to 4 weeks

	STRESSFUL EVENTS (WEATHER, VISITORS, FIREWORKS)
When	Stressful events are anticipated, start use 24 hours prior to the event If using during the event, wait 15 minutes before introducing the cat to the sprayed area(s)
Where	Apply spray to each corner of frequented rooms, 7 inches from the floor Apply spray to door frames and corners of furniture
Frequency	During the stressful event. Can be repeated every 6 hours

WARNING: FLAMMABLE. EYE IRRITANT.

Keep away from heat, sunlight, sparks, open flames, hot surfaces or other ignition sources. Do not smoke during use. Avoid contact with eyes. If sprayed in eyes, rinse thoroughly with water for several minutes. If eye irritation persists, seek immediate medical attention.

KEEP OUT OF REACH OF CHILDREN.

STORAGE: Store in a well ventilated, cool place. Crystals may form at low temperatures; this phenomenon is reversible at room temperature. May have a slight yellow color that does not affect the efficacy of the product.
